

Women's Welcome Reception

Date: Thursday, September 6, 2007

Time: 5-6 p.m.

Place: Hearst Mining Building Atrium

Refreshments will be served.

*RSVP by email to
healexis@berkeley.edu*

The Graduate Women of Etcheverry (GWE) are a group of graduate engineering students from all engineering disciplines at the University of California, Berkeley. Our primary purpose is to support women graduate students in all their engineering endeavors.

The Society Women Engineers (SWE) is an active student organization that aims to create a community among female professionals and students in the field of engineering. Through various outreach events and leadership building opportunities, SWE advances the next generation of engineers.

The Julia Morgan Engineering Program (JMEP) provides educational opportunities and academic support to both undergraduate and graduate engineering students. JMEP is a program in the College of Engineering.

The Women in Computer Science and Electrical Engineering (WICSE) organization is for all women graduate students in Electrical Engineering and Computer Sciences. We meet every Friday at noon for lunch, provide mentoring, and host social events.
